

## Sample Work Corrections Reports:

You will submit a Corrections Report to the drop box for each ACT Math Practice Test you complete.

### HOW?

- When you have finished an ACT Math Practice Test, go back to your test and go over the questions you missed.
- Then, pick 10 and write up a corrections report explaining in your own words how to get the correct answer for each of those 10.
  - This can be typed or handwritten.
  - You don't need to copy the question, just give the question number.
- Submit this report in the Sample Work drop box.
